

SAVE BATHAMPTON MEADOWS

£21m of borrowed money to build white elephant car park

B&NES council plan to spend up to £21m creating a massive 1200 space park and ride at Bathampton Meadows

2015 consultation promised to improve congestion and air quality. Even then 51% of people were against it

Council now agree it won't improve pollution and their consultants tell them it will only take 100 cars off the London Road in morning rush hour by 2029

Bath's park and rides are only 57% full at the busiest time of day – we need Christmas overspill parking instead of a new one

13,000 signed a petition against this desecration

Chosen sites are Green Belt, World Heritage City setting, floodplain, overlooked by Cotswolds ANOB, tourist attraction & our heritage – even the Romans didn't build on them

Decision to be taken Wednesday 25th January
Protest: 4:30pm-7pm Guildhall - spread the word!
